WWW.BISOK.COM

You Name IT, We Can Do IT!

WWW.BISOK.COM

ABOUT US

BIS has built a solid reputation as a full-service information technology provider and integrator of high quality document and data management systems.

Since its founding in 1986, BIS has been a cutting-edge leader providing information management, data storage options, comprehensive IT infrastructure solutions and sophisticated content management systems for the most diverse group of businesses throughout North America.

BIS is committed to setting the pace and making businesses better – it's what has driven our success for nearly three decades. You name IT, we can do IT!

OUR TEAM

At BIS it's all about teamwork. When you enlist our services, you will work with a dynamic team of experts from beginning to end.

From our business development specialists to our sales engineers and from our solutions architects to our help desk specialists, our leaders are easily approachable and actively engaged in all projects!

OUR PARTNERS

BIS partnerships are rooted in a shared vision of helping clients use technology to overcome challenges and improve operations.

We have extensive knowledge and hands-on experience with every partner product included in our comprehensive and diverse technology portfolio.

PRODUCTS & SERVICES

People. Products. Processes. That's what it's all about. Our people are experienced and enthusiastic.

BIS delivers the best products and uses proven methodologies to create solutions that improve your business processes.

Content Management

BIS experts provide the best technologies to ensure success for your content management systems.

- Document Scanners
- Capture Software
- Content Management

Custom Software Development

BIS has three decades of experience and can create custom software to suit your needs.

- *Grooper™
- FormSoft™
- ReelView™
- AX Arsenal™
- Custom Configurations
- Modules
- Components
- Databases

Records Services

BIS provides the equipment, staff, experience, and on-site storage for your records management needs.

- Document & Digital Conversion
- Micrographics Conversion
- Data Entry & OCR/ICR
- Storage & Destruction

Consulting & Project Management

BIS will coach you with skillful direction on project management while readily sharing our entire knowledge base with you.

This open exchange forms real partnerships and sets us apart from competitors that guard their "trade secrets."

Maintenance & Support

BIS experienced technicians are standing by to get you back on track in the event of a technology crisis or if you need help troubleshooting.

We also offer ad-hoc support, as well as standard and platinum-level maintenance and support packages.

Solutions

BIS will leverage the power of our diverse crowd to create any information technology solution for your industry whether you are in accounts payable, banking and financial services, education, government, health care, human resources, manufacturing, oil & gas, or retail.

There's no limit to the solutions BIS can provide. You name IT, We can do IT!

*Grooper™ is the world's first information processing platform that revolutionizes machine understanding of document information, providing you with unparalleled access to the business information inside documents.

Grooper re-engineers the way organizations capture, classify and extract documents and data.
